Wolverine Safety Eyewear is durable, dependable, obviously tough, yet surprisingly comfortable and stylish. Wolverine Safety frames work as hard as the people who wear them. All models listed meet ANSI performance standard Z87.2 All frames come with a soft case and have a one-year warranty. Removable side shields sold separately. (May be permanently attached.)

Select styles use Dura-Lock™ Side Shields, a patented system which replaces the need for rivets or screws. The small plastic connector easily snaps into the interior portion of the side shield for maximum protection. Dura-Lock™ Side Shields are easily interchanged between permanent and removable with the enclosed tool.
